

Hickory Hills Park Group Camp Areas (Outlined in Yellow)

Hickory Hills Park offers two group camp areas. The first (1-Hickory Group Camp) offers electrical hook up for about 7 units with unlimited space for tents. The second (2 – North/South Group Camps) accommodates 15 electrical units on the North side while the South side offers electrical hook up for approximately 8. In addition, both sides have plenty of space for non-electrical units. Group camp areas offer pit toilets and water hydrants to fill holding tanks. Campers may use the shower/safe room facility centrally located within the regular campground.
